

PLANT AND EQUIPMENT WELLNESS

A Process for Exceptional Equipment Reliability and Maximum Life Cycle Profits

Mike Sondalini

MIKE SONDALINI

In engineering and maintenance, since 1974, Mike Sondalini's career has extended across original equipment manufacturing, beverage production, steel fabrication, industrial chemical manufacturing, quality management, project management, industrial asset management and industrial training. His specialty is helping capital equipment intensive companies build sound business risk management practices, introduce world-class lean practices, develop ultra-high reliable enterprise asset management systems and instil the precision maintenance skills needed to continually improve plant uptime.

Mike has authored numerous maintenance and industrial asset management publications and developed the www.feedforward.com.au UPTIME training series for chemical and process plants. His current programs for business – "The Accuracy Controlled Enterprise" and "Change to Win Program" – inculcate ultra-high reliability best practices into organisations within 100 days. Mike is a past Chairman of the WA Chapter of the Maintenance Engineering Society of Australia and is a confident and exciting presenter at Australian and international conferences and workshops. His professional qualifications include BEng(Hons), MBA, CPEng.
